

Boarding Training Overview

We are excited to partner with Envy my Dog to bring you a fun and effective 21 Day Board Train Program.

In our board and train program, we expose your dog to multiple learning points each day over the course of 21 days, incrementally building upon the challenge to achieve both fluency and generalization in different environments. In the second and/or third week, your dog will get the opportunity to go on field trips and practice their new skills in pet-friendly public places. On the last day of training, we invite the family to be a part of integration training to ensure everyone understands how to maintain results (and so your pet finds value in readily taking cues from your family). After Reunion Day, you are entitled to two in-home visits where your trainer helps you apply what your pet learned at home.

In this program, pet parents will learn clear communication skills to condition new behaviors and correcting behaviors caused by unintentional conditioning or behaviors learned prior to pet acquisition. You will learn how to determine what your dog values as rewards and motivations and learn how to increase the value of a reward system. You will also discover your dog's learning style and how to appropriately correct un-wanted behavior, then teach your dog an acceptable alternative. You will learn how to get consistent command execution, how to elevate confidence, implement structure, and how to make training a fun experience.

All pet parents gain permanent access to Envy My Dog's private Facebook group where they upload training videos almost daily of your pet's progress. This is an important platform to educate you in how they condition behaviors and for you

to see that your pet is learning and having a good time. Long after your program is over, we encourage you to utilize this group to ask questions, refresh your knowledge on application, and continue learning new fun ways to entertain your dog.

LEARNING POINTS

Correcting inappropriate eliminating

Stealing non-toy items

Confidence building for fear or nervousness

Crate training

Leash manners

Lunging at vehicles, dogs, or people on leash (when they otherwise may not off leash)

Conditioned relaxation

Social skills

Jumping

Play biting

Begging

Boundary control

Nuisance Barking

Obedience: Sit, Stay, Down, Recall, Heel

Focus/ "Watch Me"

Social Skills (How to appropriately interact with other dogs and people)

Envy My Dog's methodology is ethical application of behaviorology. While they frequently use differential reinforcement and extinction protocols to solve behavior problems, they will teach you about all operant conditioning quadrants, so you know how to apply training techniques safely, effectively, and fairly. They are flexible in their training tool instruction, so they condition your pet for a tool you are most comfortable using. We encourage you to be more patient and forgiving of yourself and your pet in setbacks and celebrate your successes. We're here to support you when you need us the most!

Total cost of program: \$2,625

Includes:

- 21 days of one-on-one customized training
- Private boarding room at fido fido's Alpharetta campus
- Private lesson on Reunion Day at fido fido's Alpharetta campus
- One follow-up in-home lesson one week after Reunion Day
- Final follow-up in-home lesson two weeks after that

ENVY MY DOG

With over ten years of combined experience in dog daycare management, veterinary technology, rescue and shelter work, dog show and dog sport

competition, and aggression rehabilitation, I offer my clients a comprehensive understanding of behavior so they can enjoy their relationship with their pet to the fullest.

My team offers our clients programs in puppy foundations, general obedience, introduction to the dog show/sport world, and correcting mild reactivity towards other animals and people. We mentor Animal Behavior College students and conduct their final evaluations required for graduation. We work closely with a number of pet rescues, shelters, veterinary clinics, and dog daycares to provide staff training programs for increased efficiency. Lastly, we are a professional member of the International Association for Canine Professionals as well as the Association of Animal Behavior Professionals.
